

# BROCHURE

Vol 04.24

# SHADES OF

Art, culture and beliefs are beautifully entwined in the fabric that is India. Elements of nature, stories of valour, mythological characters, Lords and Kings, all come together in a burst of colour and intricate designs in the art forms of the country. The complexity of the Madhubani or the richness of the Tanjore art form, are testimony of the craftsmanship of artists and artisans, who make the art forms, their very *raison d'etre*.

Nebulon Paints pays tribute to the ancient art forms in different parts of the country, that remain alive to this day, thanks to the craftsmen who revere the art.

# INTERIOR EMULSIONS

## LUNA

Luna - a Classic Interior Emulsion by Nebulon Paints is a complete acrylic emulsion paint that has been developed with the best formulation to deliver superior quality and durability. It offers a highly attractive finish and is available in comprehensive shades and colours. This water-based environmentally friendly paint has low VOC and low odour. The special grades of binders and additives used in it ensure minimum impact on the environment.

## ZENITH

Zenith - a Premium Interior Emulsion is known for its soft, sheen finish to the walls. This emulsion has been formulated using international standards so it offers a premium finish to the walls that lasts for a longer period. Hence, with Zenith you can get a premium look for your dream home. Besides good coverage, you get this paint at quite a reasonable price. This water based acrylic wall premium coating gives your interior walls long lasting look which matches your furniture.

## PHOENIX

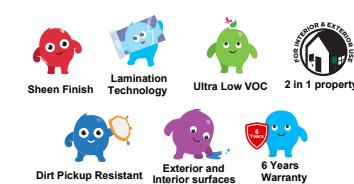

Phoenix is a Luxury Interior Emulsion paint. This water based acrylic wall luxury coating gives your interior walls a rich and high sheen look which goes with your luxury interiors. With the advanced technology used in it, you get an ultra-smooth sheen finish. No doubt you get extra benefits with its Algae resistance capabilities. Its low VOC ensures minimum harm to the environment. Moreover, some additional properties like stainresistance and washable capabilities make this paint easy to maintain and it remains the same in the long run.

## HORIZON

Horizon is a Multi Emulsion water based acrylic coating which is applied for both interior and exterior walls. The advanced protection formulation used in it makes it acts as a shield against harmful sun rays and thus prevents fading of colour or any sort of degradation over time. The best thing about this emulsion is its dust-proof features. This ensures that you can have clean and wellmaintained walls for years. Choose Nebulon Paints Multi Emulsion Paint for long-lasting, enhanced colourful interiors.

# EXTERIOR EMULSIONS

## VEGA

Vega is a classic exterior emulsion paint. This water based acrylic wall classic coating gives your exterior walls an unmatched fresh look that lasts over years. It is one of the Classic Exterior Emulsions that is used mostly in new constructions. However, it can also be used for repainting when you need a smooth finish along with durability. Whenever you opt for exterior applications of this paint then make sure that the concrete, masonry, aggregate block, cement, and plastered walls are properly prepared before application. This will offer a fresh look and the walls will remain protected from all sorts of damages.

## PRISMA

Prisma is a premium exterior emulsion paint. This water based acrylic wall premium coating gives your exterior walls long lasting look and protects from exterior forces. It is a perfect solution for the shiny, classy appearance of your home. If you want to give a sheen finish to your exterior walls then Prisma is the one that you must choose. The acrylic binder present in this paint ensures its durability. Moreover, it is a water-based paint so it protects the walls from dust and dirt. Besides that, low VOC, anti-fungal, waterproofing and durability against harsh weather conditions are some of its characteristics.

## MAJESTIC

Majestic is a luxury exterior emulsion paint. This water based acrylic wall luxury coating gives your exterior walls a rich look and last several years giving a very fresh look. Made using advanced silicon protection technology, this paint acts as a shield against heavy rain and harsh sunlight. It has a unique polymer composition due to which your exterior surface remains protected against dust. No doubt why it comes with a six-year performance warranty. For a brighter and high sheen finish, excellent coverage, protection against weather and fungus attack, silicon protection, Majestic is the paint solution that you must opt for.

# WATER PRIMERS/UNDER COATS

## BLISS

Bliss is a classic interior primer which is a water-based acrylic under coating for interior surfaces. Guaranteed to last, these products are backed by nebulon paints international quality guarantee. This is completely water-based white colour cement that offers better adhesion to the surface when applied on existing primed surfaces like after applying a putty coat. Bliss ensures minimal environmental impact and are formulated with special grades of binders and additives.

Good Adhesion   Low VOC   Good Opacity

## COSMIC

Cosmic is a premium interior primer which is a water-based acrylic under coating for interior surfaces for rich look. It can be used on properly prepared concrete, concrete block, brick, and stucco. Along with providing the best adhesion, the formulation used in this primer ensures that it offers unique resistant properties. The presence of light, fast chemical resistant pigments, and fillers along with tough and flexible emulsion resin binder make it an excellent durable coating for the walls.

Good Opacity   Low VOC   Good Adhesion   No added Lead   Excellent Coverage

## TWILIGHT

Twilight is a premium exterior primer which is a water based acrylic wall coating for exterior surfaces for rich look. Twilight is developed and formulated in line with Nebulon Paints' core values providing – superior quality, unbeatable longterm value, highly attractive finish. The excellent alkali resistance, fast drying capabilities and amazing coverage make Twilight one of the favourite primers. No doubt when Twilight is used on prepared concrete, block, brick and stucco, it increases the performance of paints manifold.

Low VOC   Anti Algal   Alkyd Based Formula   Good Opacity   Excellent Coverage   Lead-free

## SPECTRA

Spectra is a 2in1 multi primer which is a water based acrylic wall coating for both interior and exterior surfaces. Presence of light, fast chemical resistant pigments / fillers, tough and flexible emulsion resin binder, special preservatives, and other special additives make Spectra an excellent durable coating. The feature that makes spectra stand out from other primers is that it can be applied even on exterior walls, plywood siding and trims. Without any problem, you can apply it on both new and previously painted walls.

Low VOC   Multi-Surface Formula   Alkyd Based Formula   Excellent Coverage   Good Adhesion   2 in 1 property

## VISTA

Vista is a specialised product which is a water based acrylic exterior coating which is useful for damp surfaces. This waterproofing coat has a crack bridging ability and anti-fungal characteristics. Vista Damp Proof is a fibre-reinforced elastomeric liquid that acts like an applicator as well as a remover of external damp surfaces. It can be used as a waterproofing membrane for terraces and walls. As it is formulated with elastomeric and resilient acrylic polymers and reinforcing polyester fibres, upon curing it forms a thick, seamless, durable membrane. This membrane makes terraces, balconies, walls and other exterior surfaces water-proof.

## WALL PUTTY EMPIRE

Empire is a Wall Putty (Interior/Exterior) White Cement Based which has a water-resistant property ensures that the paint does not flake off even if the walls are damp, ensuring a long life for your expensive paints. It fills up the minor cracks/crevices in the plastered wall and provides an even levelled surface. It does not need a paint primer for paint application, which makes it highly economical as compared to conventional putty, POP, and acrylic putty. It reduces paint consumption by 25-30% being smooth, durable, and less absorbent as compared to conventional options.

### MONOCHROMATIC

Choose any shade, tint or tone of one colour, for example yellow-greens, to create a simple colour scheme based on the lighter or darker violations of yellow-greens. You could also add neutral colours such as white and grey for extra visual interest.

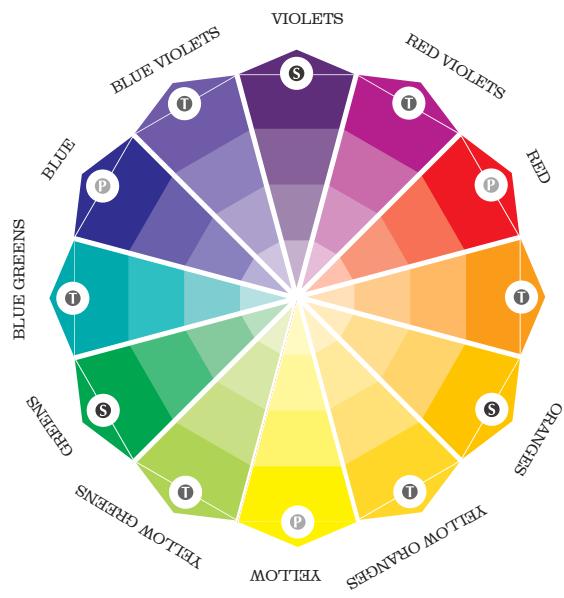

### ADJACENT

Mix either a primary or secondary colour with one or two tertiary colours. Choose two or three colours lying next to each other on the colour wheel, within a 90-degree angle. For example, combine reds with red-oranges and oranges.

# Basic guide to choosing the right colours

Although there are no hard and fast rules, there are certain colour combinations that are more appealing. Use the colour wheel to select an inspiration colour scheme that will look great in your home!

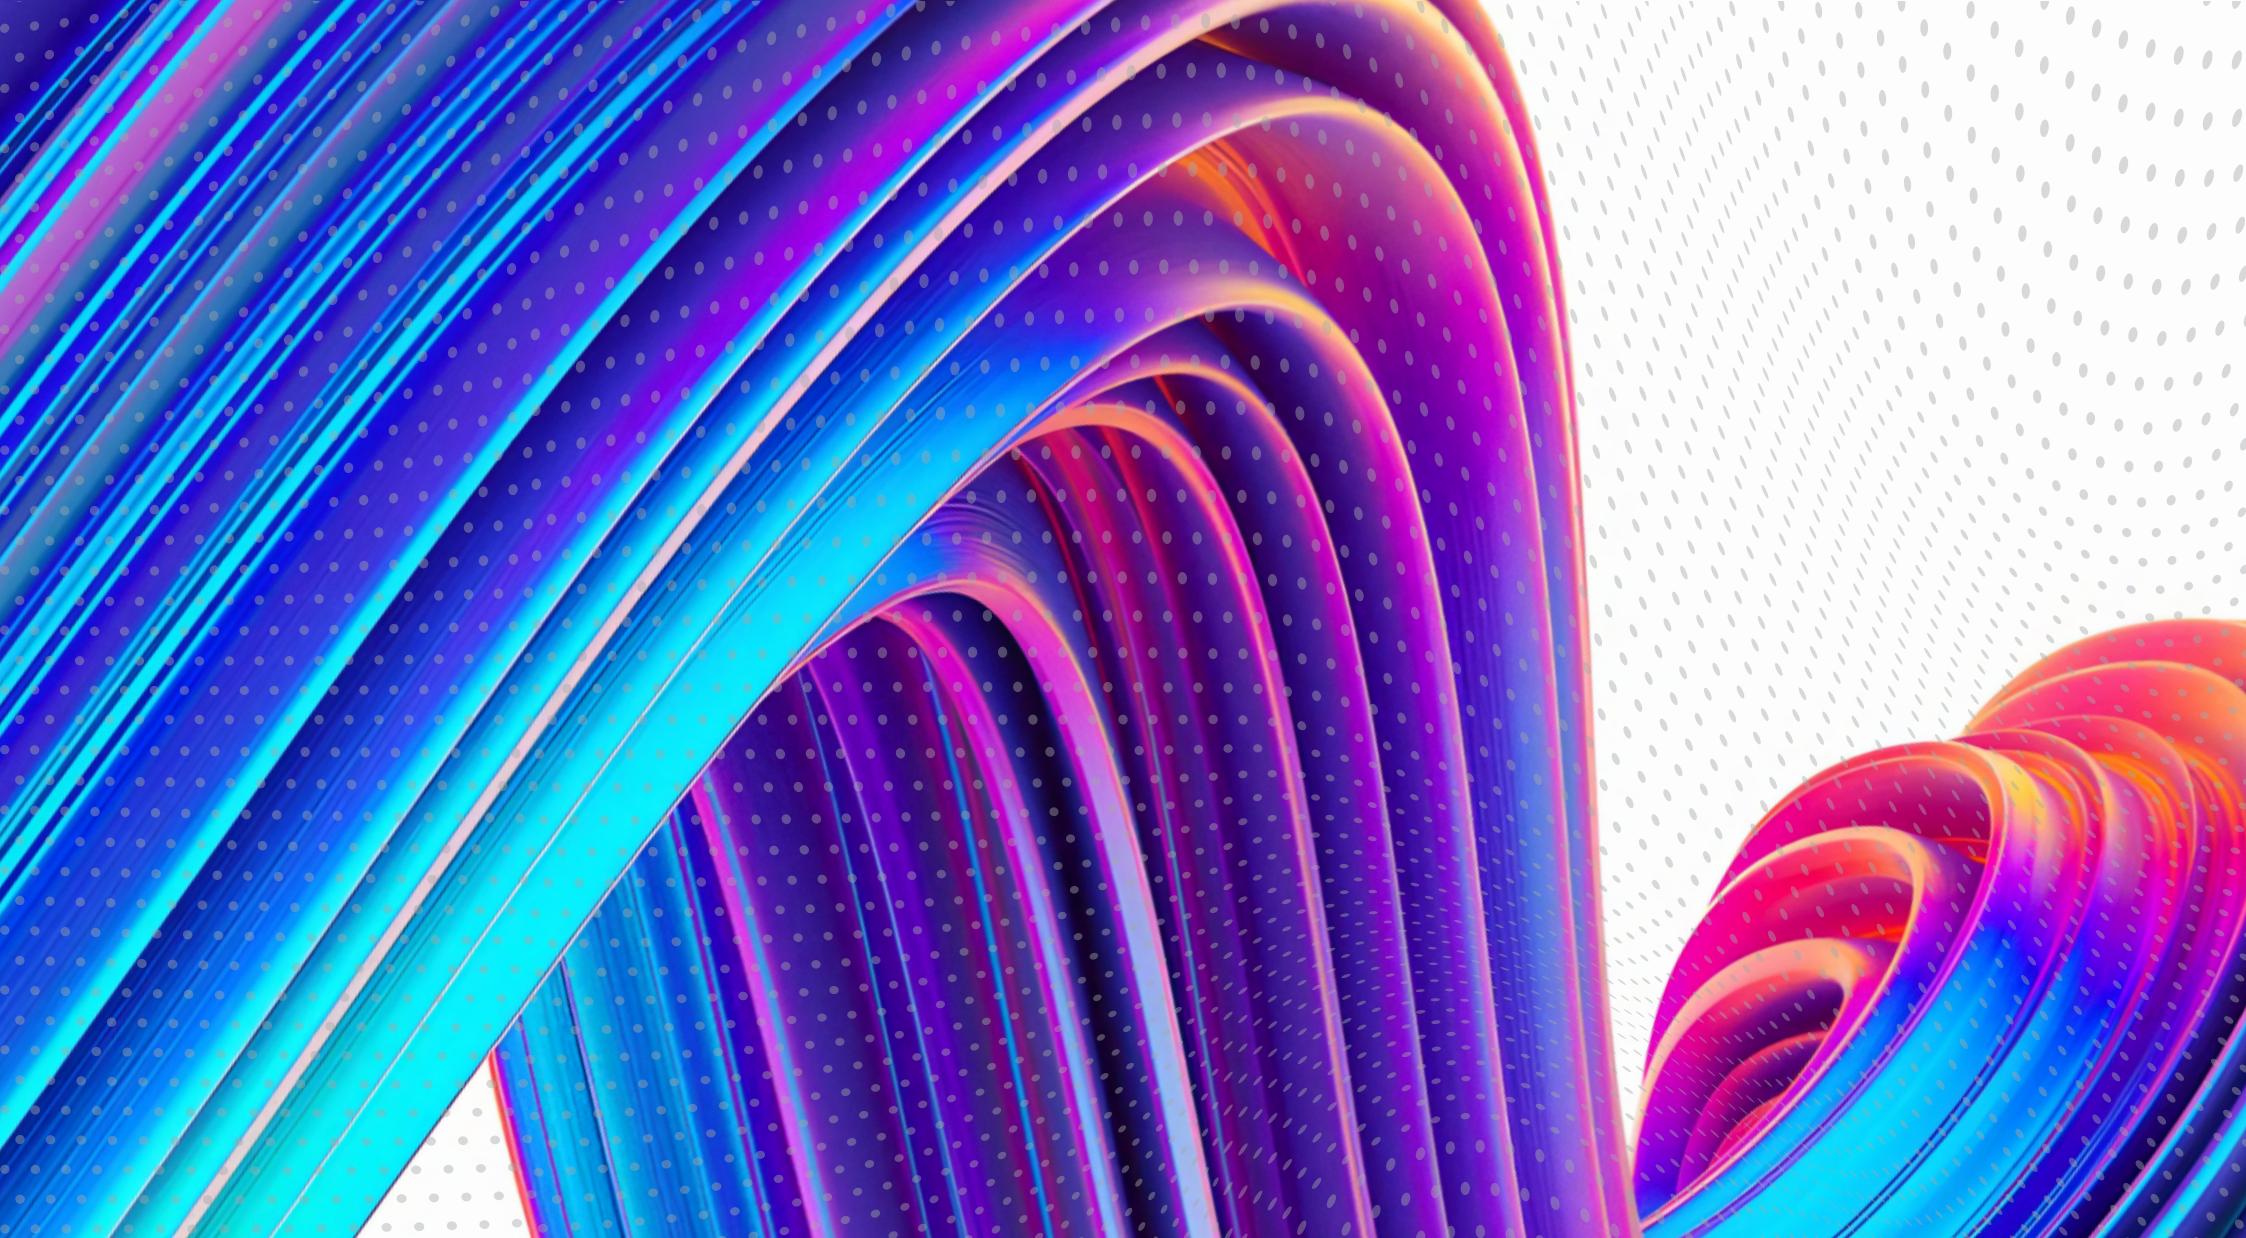

### TRIADIC

Use three colours that are equidistant on the colour wheel, such as oranges, greens and violets. For best results, you should use one dominant colour and use the other two as subtle complementing colours.

### COMPLEMENTARY

Choose two colours that lie opposite each other on the colour wheel - such as purples and yellows - as the main colours in your colour scheme. The result could be a vivid combination, full of energy, depending on the strength of colour chosen.
